

PEMA Grants and Programs

Building Resilient Infrastructure and Communities (BRIC)

2022 BRIC Deadlines

- The federal fiscal year 2022 Building Resilient Infrastructure & Communities (BRIC) and Flood Mitigation Assistance (FMA) grant programs application periods open on **September 30, 2022**
- All PEMA [Letters of Interest \(LOI\)](#) must be sent to PEMA by **October 19, 2022 at 5:00 PM**.
- All complete 2022 applications are due by **November 16, 2022 at 5:00 PM**.

BRIC Program Overview

The [Building Resilient Infrastructure and Communities \(BRIC\) program](#) [Opens In A New Window](#) is a new FEMA pre-disaster hazard mitigation program that replaces the existing Pre-Disaster Mitigation (PDM) program.

The BRIC program is an annually funded nationwide competitive grant program; a federal disaster declaration is not required.

The BRIC program guiding principles are supporting communities through capability- and capacity-building; encouraging and enabling innovation; promoting partnerships; enabling large projects; maintaining flexibility; and providing consistency.

The overall goal of this non-disaster grant is to reduce overall risk to the population and structures from future hazard events, while also reducing reliance on federal funding in future disasters.

As with the Flood Mitigation Assistance program, this program is open to any local governments or eligible organizations; individuals cannot apply directly for the program.

The federal cost share for a PDM project is 75 percent. At minimum, a FEMA-approved local flood mitigation plan is required before a project can be approved. Some funding is available for planning.

Emergency Management Performance Grant

EMPG Overview

The Emergency Management Performance Grant (EMPG) encourages the development of comprehensive disaster preparedness and assistance plans, programs, capabilities, and organizations by the states and by county governments. Funds under this program are

appropriated by Congress for allocation to the states by the Federal Emergency Management Agency (FEMA).

The states, in turn, are responsible for subgranting these funds to county emergency management organizations for reimbursement of salaries and benefits. Grants are available on a 50 percent matching basis.

Are You Eligible?

Eligible entities are all county governments within the Commonwealth of Pennsylvania.

How Can These Funds be Used?

Financial and technical assistance is provided to support state and county governments' efforts to improve their emergency response capabilities.

By providing this assistance, the federal government stresses the importance of, and the fact that there is a national interest in, all jurisdictions having emergency management programs that:

- Have a dedicated staff to conduct and coordinate emergency management activities
- Prepare and maintain comprehensive Emergency Operations Plans (EOP) that address relevant hazards
- Ensure that all members of the emergency response organization receive the necessary training
- Ensure that there is an aggressive exercise program that provides a means to evaluate and test plans, people, procedures, equipment, etc.
- Apply the results and lessons learned from self assessments, deficiencies identified during the conduct of exercises, EOP reviews, and post-disaster response critiques to improve the jurisdiction's emergency response capabilities
-

Flood Mitigation Assistance

2022 FMA Deadlines

- The federal fiscal year 2022 Flood Mitigation Assistance (FMA) and Building Resilient Infrastructure & Communities (BRIC) grant programs application periods open on **September 30, 2022**.
All PEMA [Letters of Interest \(LOI\)](#) must be sent to PEMA by **October 19, 2022 at 5:00 PM**.
All complete 2022 applications are due by **November 16, 2022 at 5:00 PM**.

FMA Overview

The [Flood Mitigation Assistance \(FMA\) grant program Opens In A New Window](#) is a pre-disaster mitigation program.

FMA is funded annually; a federal disaster declaration is not required. FMA funding comes from the National Flood Insurance Program (NFIP) and is limited. The federal cost share for an FMA project is 75 percent.

At minimum, a FEMA-approved local flood mitigation plan is required before a project can be approved. Some funding is available for planning.

Are You Eligible?

Only NFIP-insured homes and businesses and municipalities in good standing with the NFIP are eligible for mitigation in this program. Applications must come from local governments or other eligible organizations; individuals cannot apply directly for the program.

How Can These Funds be Used?

Advance Assistance – Funding will be provided to develop mitigation strategies and obtain data to prioritize, select, and develop viable community flood mitigation projects. This design work will facilitate viable projects for future grant applications.

Community Flood Mitigation Projects – The remaining set aside will fund projects for proven techniques that integrate cost effective natural floodplain restoration solutions and improvements to NFIP-insured properties that benefit communities with high participation and favorable standing in the NFIP.

Flood Mitigation Planning Grants – Funds shall not exceed \$25,000 and can only be used for the flood hazard component of the hazard mitigation that meets planning criteria outlined in 44 CFR Part 201.

Hazard Mitigation Grant Program

The Hazard Mitigation Grant Program (HMGP) is a grant that requires a federal disaster declaration.

The purpose of HMGP is to help communities implement hazard mitigation measures following a Presidential Major Disaster Declaration in the areas of the state, tribe, or territory requested by the Governor or Tribal Executive.

The key purpose of this grant program is to enact mitigation measures that reduce the risk of loss of life and property from future disasters.

The primary guidance document for this program is the HMA Guidance. HMGP is authorized under Section 404 of the [Robert T. Stafford Disaster Relief and Emergency Assistance Act](#)[Opens In A New Window](#).

Once a federally declared disaster is provided to the commonwealth, municipalities which adopted the county's Hazard Mitigation Plan are eligible. This program is open to any local governments or eligible organizations; individuals cannot apply directly for the program.

The federal cost share for a pre-disaster mitigation project is 75 percent and typically the commonwealth will pay for the 25 percent required non-federal share.

FEMA's vision is to serve as a catalyst that drives increased understanding and proactive action to help people in communities reduce their losses from natural hazards. To support this vision, FEMA funds three Hazard Mitigation Assistance grant programs. Hazard mitigation measures are any sustainable action taken to reduce or eliminate long-term risk to people and property from future disasters.

The HMGP supports cost-effective post-disaster projects and is the longest running mitigation program among FEMA's three grant programs. Studies have shown that every \$1 spent equals \$6 of future damages mitigated.

Are You Eligible?

Only the Commonwealth of Pennsylvania may apply as an applicant.

Sub-applications must come from local governments or other eligible organizations; individuals cannot apply directly for the program.

Eligible entities may submit the PEMA Form #00Letter of Intent (LOI) to get on a Hazard Mitigation potential project or plan list. The agency contacts all communities and associations when this funding becomes available to include legislative and municipal associations, to ensure awareness, required eligibilities and visibility for all communities and disaster survivors.

How Can These Funds be Used?

HMGP is designed to assist states, territories, federally-recognized tribes, and local communities in implementing a natural hazard mitigation program.

The goal is to reduce overall risk to the population and structures from future hazard events, while also reducing reliance on federal funding in future disasters.

This program awards planning and project grants and provides opportunities for raising public awareness about reducing future losses before disaster strikes. Mitigation planning is a key process used to break the cycle of disaster damage, reconstruction, and repeated damage.

Hazardous Material Response Fund

The grant application period is in January of each calendar year.

HMRF Overview

The Hazardous Material Response Fund (HMRF), supported by fees assessed to the chemical industry, is designed to provide supplemental emergency preparedness funding for chemical emergency preparedness at county and state levels.

Are You Eligible?

Eligible entities are all county governments within the Commonwealth of Pennsylvania.

How Can These Funds be Used?

These funds are to be used for the preparation of chemical emergency plans by local emergency planning committees (LEPCs) and industry, acquisition of hazardous material response team equipment, public Right-to-Know education, chemical industry awareness and compliance, and the conduct of training and exercises.

Hazardous Materials Emergency Preparedness Planning and Training Grants

The grant application period is in the spring of each year, dependent on the timing of federal appropriations/announcement.

HMEP Planning and Training Grants Program Overview

Federal Hazardous Material Law authorizes the U.S. Department of Transportation (U.S. DOT) to provide assistance to public sector employees through planning and training grants to states, territories, and Native American tribes for emergency response.

The purpose of this grant program is to increase effectiveness in safely handling hazardous materials accidents and incidents, enhance implementation of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA), and encourage a comprehensive approach to emergency training and planning by incorporating the unique challenges of responses to transportation situations.

The U.S. DOT Research and Special Programs Administration, under a program that began in 1993, provides a reimbursable grant to every state to assist in hazardous materials response planning and related training activities.

Are You Eligible?

Eligible entities are all county governments within the Commonwealth of Pennsylvania.

How Can These Funds be Used?

These funds assist in hazardous materials response planning and related training activities.

States are required to apply each year for the funding. Of funding received, 75 percent is earmarked for local planning and training activities.

Homeland Security Grant Program

NEW: [FY 2022 HSGP Notice of Funding Opportunity \(NOFO\)](#) (PDF)

WEBINAR OPPORTUNITY: [FEMA's FY 2022 HSGP "Enhancing Community Preparedness and Resilience" National Priority Area Webinar \(May 2022\) Opens In A New Window](#)

The grant application period is in the spring of each year, dependent on the timing of federal appropriations/announcement. The grant application announcement will be via email to eligible entities, with submission in the [Electronic Single Application](#).

The high-level objective of this federal grant program is to provide funds to eligible entities to support state, local, tribal, and territorial efforts to prevent terrorism and other catastrophic events and to prepare the nation for the threats and hazards that pose the greatest risk to the security of the United States.

One of the core missions is to enhance the ability of state, territory, local, and tribal governments to prevent, protect against, respond to, and recover from terrorist attacks and other disasters and to strengthen homeland security preparedness.

State Homeland Security Grant Subprogram Overview

The State Homeland Security Grant Subprogram (SHSP) supports state, local, tribal, and territorial preparedness activities that address high priority preparedness gaps across all core capabilities that support terrorism preparedness.

Urban Area Security Initiative Subprogram Overview

The UASI assists high-threat, high-density Urban Areas in efforts to build, sustain, and deliver the capabilities necessary to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.

Are You Eligible?

Eligible entities are county governments within the respective Commonwealth of Pennsylvania Regional Task Forces as established following Title 35. Eligible entities must ensure and maintain the adoption and implementation of the National Incident Management System (NIMS).

How Can These Funds be Used?

Funds must be used to enhance preparedness capabilities identified in the Stakeholder Preparedness Review (SPR) against Threat and Hazard Identification and Risk Assessment (THIRA) target. Additionally, all activities in allowable categories must be linked to Core Capabilities to further the [National Preparedness Goal](#)[Opens In A New Window](#). Activities must fall under the following categories: planning, training, exercise, organization and management, and administration.

Another key requirement for all activity is overall local and regional coordination, resource sharing, and collaboration.

Individual Assistance Programs

In the event of a Presidential Declaration of Major Disaster, the [Individual Assistance program](#)[Opens In A New Window](#) provides help for individuals, businesses, homeowners, and renters as they recover from disasters.

These programs are largely funded by the Federal Emergency Management Agency (FEMA), although other federal, state and local agencies support the overall Individual Assistance program.

If you are an individual, business, homeowner, directly affected by a disaster and have significant damages, contact your county emergency management office.

Small Business Administration Loan Program

If a federal disaster declaration is not made available, the commonwealth may still request a [Small Business Administration \(SBA\)](#)[Opens In A New Window](#) declaration.

SBA serves as the federal disaster bank for homeowners, renters, businesses, and some nonprofit entities in the wake of hurricanes, floods, earthquakes, wildfires, tornadoes, and other physical disasters. SBA loans provide federal low-interest loans to homeowners, renters, and businesses.

Due to a lower level of damages required for a disaster declaration by the SBA, usually confined to a specific community or county, disaster declarations by the SBA are more common than Federal Declarations of Major Disaster for smaller events such as major fires, localized flooding, and events disrupting business and commerce.

To be eligible for an SBA declaration, at least 25 households and/or businesses must have a minimum 40-percent uninsured loss, or at least five businesses must have a significant economic loss. The SBA low-interest loan program is available to homeowners, renters, and businesses. Applicants must meet eligibility requirements.

If you are a homeowner, renter, or business owner and have suffered damages resulting from a hurricane, flood, earthquake, wildfire, tornado, or another physical disaster, you should contact your county emergency management office.

Remember: SBA disaster loans cover uninsured or underinsured losses only.

Community Development Block Grant – Disaster Recovery (CDBG-DR)

Overview

Grants for federally designated disaster areas impacted by Tropical Storm Lee and Hurricane Irene.

The application process is open to those municipalities, consortia or non-profit organizations that are interested in applying for the housing component funds under the second allocation PL 113-2. DCED may at its discretion, open the application window for funding in the future.

Uses

Housing rehabilitation, homebuyer assistance, housing development and other housing-related activities, infrastructure improvements, economic development and planning and technical assistance activities.

Eligibility

- Units of local government, consortia and nonprofit entities in the 36 counties impacted
-

Funding

Grants for priority housing component projects identified through the most recent needs assessment. See guidelines for maximum assistance.

Terms

Fifty percent of the grant funding must be used for activities that benefit low- and moderate income persons. Refer to the program guidelines.

Eighty percent of the funds must be targeted to the following counties and municipalities within those counties — Luzerne, Bradford, Dauphin, Columbia and Wyoming.

COVID-19 ARPA H2O PA – Water Supply, Sanitary Sewer and Storm Water Projects

Overview

The H2O PA Act was established by the General Assembly in July 2008. The Act provides for single-year or multi-year grants to municipalities or municipal authorities to assist with the construction of drinking water, sanitary sewer and storm water projects. Act 54 of 2022 appropriated \$205.4 million of American Rescue Plan Act funds to the H2O PA – Water Supply, Sanitary Sewer and Storm Water Projects Program.

Uses

Activities to assist with the construction of drinking water, sanitary sewer and storm water projects.

Funding

A minimum for \$500,000 or more and a maximum of \$20,000,000 for any project.

Emergency Solutions Grant – CARES Act (ESG-CV)

[2020 Emergency Solutions Grant CV – Round 1 Award Recipients](#)

[2020 Emergency Solutions Grant CV – Round 2 Award Recipients](#)

[2020 Emergency Solutions Grant CV – Round 2 Award Recipients July 2021](#)

[2020 Emergency Solutions Grant CV – Code Blue Award Recipients](#)

Overview

Emergency Solutions Grant – CARES (ESG-CV) – The Coronavirus Aid, Relief, and Economic Security Act of 2020 (CARES Act) provided for a supplemental appropriation of Homeless Assistance Grants under the Emergency Solutions Grant (ESG) as authorized by McKinney-Vento Homeless Assistance Act of 1987 (P.L. 100-77), as amended by the Homeless Emergency

Assistance and Rapid Transition to Housing (HEARTH) Act of 2009 (P.L. 111-22) (42 U.S.C.S. §11371 et. seq.).

The CARES Act provides for two allocations of homeless assistance funds to prevent, prepare for, and respond to coronavirus, among individuals and families who are homeless or receiving homeless assistance and to support additional homeless assistance and homelessness prevention activities to mitigate the impacts created by coronavirus.

The Commonwealth of Pennsylvania, through the Department of Community and Economic Development (DCED), has received the second allocation of ESG-CV funds – an appropriation of \$19,930,907 based on a new HUD formula accounting for variables that quantify the population currently experiencing and at risk of homelessness such as total homeless population, unsheltered homeless population, total very low income (VLI) renters, VLI renters that are overcrowded or without a kitchen or plumbing.

DCED allocated \$2,997,961 of the second round of ESG CV funds to a [Code Blue program](#) to provide winter sheltering during the 2020-2021 season. The remaining \$16,932,946 will be available for this application.

DCED will use the ESG CARES funding to support applicants who will work to end or prevent homelessness quickly and as efficiently as possible for all vulnerable populations.

Uses

Eligible activities include activities listed in the Emergency Solutions Grant Interim Rule, published in the Federal Register on December 5, 2011 and the Notice CPD 20-08 released September 1, 2020. ESG-CV funds may be used for any single activity or combination of eligible activities as outlined below and address the priorities and any published supplemental requirements of the CARES Act in order to prepare for, prevent the spread of and respond to the coronavirus.

- Emergency Shelter
- Temporary Emergency Shelter
- Rapid Rehousing

- Homelessness Prevention
 - Landlord Incentives
 - Street Outreach
 - Hazard Pay
 - Homeless Management Information System (HMIS)
 - Administration
-

Eligibility

DCED will accept applications from any general-purpose unit of local government, including cities, boroughs, and townships, towns, counties, home rule municipalities, and communities that desire to apply “on behalf of” other municipalities. Local governments may apply “on behalf of” nonprofit organizations. Non-profit organizations are eligible to apply only for a regional project as long as it demonstrates a regional need and serving multiple counties. (DCED defines “regional” as more than one county.)

Funding

\$25,000 minimum and no maximum.

NO match is required for funds awarded under the ESG-CV.

Emergency Solutions Grant (ESG)

2021 Emergency Solutions Grant –Award Recipients

Overview

Emergency Solutions Grant (ESG) is federal grant providing funding to assist with the rapid rehousing of homeless persons, street outreach, homelessness prevention, and emergency shelter activities. Funds may also be used to support the maintenance of a homeless management information system (HMIS) and administration. This program is authorized by McKinney-Vento Homeless Assistance Act as amended by the Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act of 2009.

Uses

Eligible activities include all activities listed in the Emergency Solutions Grant Interim Rule, published in the Federal Register on December 5, 2011. ESG funds may be used for any single activity or combination of eligible activities as outlined below:

- Rapid Rehousing
- Street Outreach
- Homelessness Prevention
- Emergency Shelter
- Homeless Management Information System (HMIS)
- Administration

Eligibility

DCED will accept applications from any general purpose unit of local government, including cities, boroughs, and townships, towns, counties, home rule municipalities, and communities that desire to apply “on behalf of” other municipalities. Local governments may apply “on behalf of” nonprofit organizations. Non-profit organizations are eligible to apply only for a regional project as long as it demonstrates a regional need and serving multiple counties.

Funding

\$25,000 minimum and no maximum.

Terms

Refer to program guidelines and application kit.

H2OPA–Flood Control Projects

Overview

The H2O PA Act was established by the General Assembly in July 2008. The Act provides single-year or multi-year grants to the commonwealth, independent agencies, municipalities or municipal authorities for flood control projects.

Uses

Projects which involve construction, improvement, repair or rehabilitation of all or part of a flood control system.

Eligibility

- The Commonwealth
 - Independent agencies
 - Municipalities or municipal authorities
-

Funding

A minimum of \$500,000 or more and a maximum amount of \$20 million for any project.

Terms

See Program Guidelines.

Local Share Account (LSA)–Statewide

Overview

The PA Race Horse Development and Gaming Act (Act 2004-71), as amended, provides for the distribution of gaming revenues through the Commonwealth Financing Authority (CFA) to support projects in the public interest within the Commonwealth of Pennsylvania.

Uses

Projects in the public interest. Projects that improve the quality of life of citizens in the community. Eligible projects must be owned and maintained by an eligible applicant or a nonprofit organization.

See program guidelines for specific eligible uses of funds.

Eligibility

Eligible applicants include:

- Pennsylvania Counties
 - Municipalities
 - Municipal Authorities
 - Economic Development Agencies
 - Redevelopment Authorities
-

Funding

Grant amounts will vary based on the specific project requirements.

Tax Increment Financing (TIF) Guarantee Program

Overview

Promotes and stimulates the general economic welfare of various regions and communities in the Commonwealth and assists in the development, redevelopment and revitalization of Brownfield and Greenfield sites in accordance with the TIF Act. The program provides credit enhancement for TIF projects to improve market access and lower capital costs through the use of guarantees to issuers of bonds or other indebtedness.

Uses

Infrastructure and environmental projects for industrial enterprises and retail establishments; Infrastructure, environmental and building projects for manufacturers, hospitals, convention centers and associated hotels; Utilization of abandoned or underutilized industrial, commercial, military, previously mined institutional sites or buildings; or undeveloped sites planned and zoned for development in accordance with any existing comprehensive municipal plan.

Eligibility

All municipalities and their authorities, including boroughs, townships, towns, counties and home rules that issue TIF bonds to fund local economic development projects.

Funding

Maximum guarantee amount per project is \$5 million

Purpose of Funding

- Environmental Projects
 - Infrastructure
 - Site Development – Business
 - Site Development – Local Government
-

Terms

Project must be located in a blighted area (containing the characteristics of blight as described in the Urban Redevelopment Law); Project must be located within a TIF district; Project must be located on previously utilized property or on undeveloped property that is planned and zoned for development; Project must demonstrate its ability to comply with the TIF law prior to the issuance of bonds or other indebtedness; Applicants must show that the revenue to be realized as a result of the project will be sufficient to offset the amount of the debt service;

Flood Mitigation Program (FMP)

Overview

Act 13 of 2012 establishes the Marcellus Legacy Fund and allocates funds to the Commonwealth Financing Authority (the “Authority”) for funding statewide initiatives to assist with flood mitigation projects.

Uses

Projects authorized by a flood protection authority, the Department of Environmental Protection (DEP), the U.S. Army Corps of Engineers (Corps) or the U.S. Department of Agriculture’s Natural Resources Conservation Service (NRCS) or identified by a local government for flood mitigation are eligible for the program.

Eligibility

- Municipalities
 - Councils of Governments
 - Authorized Organization
 - Institution of Higher Education
 - Watershed Organization
 - For-Profit Businesses
-

Funding

Grants shall not exceed \$500,000 for any project. A 15% match of the total project cost is required.

Watershed Restoration and Protection Program (WRPP)

Overview

Act 13 of 2012 establishes the Marcellus Legacy Fund and allocates funds to the Commonwealth Financing Authority for watershed restoration and protection projects. The overall goal of the Watershed Restoration and Protection Program (WRPP) is to restore, and

maintain restored stream reaches impaired by the uncontrolled discharge of nonpoint source polluted runoff, and ultimately to remove these streams from the Department of Environmental Protection's Impaired Waters list.

Uses

Projects which involve the construction, improvement, expansion, repair, maintenance or rehabilitation of new or existing watershed protection Best Management Practices (BMPs).

Eligibility

- Municipalities
 - Councils of Governments
 - Authorized Organization
 - Institution of Higher Education
 - Watershed Organization
 - For-Profit Businesses
-

Funding

There is a maximum of \$300,000 for any project. A 15% match of the total project cost is required.

[Greenways, Trails, and Recreation Program \(GTRP\)](#)

Overview

Act 13 of 2012 establishes the Marcellus Legacy Fund and allocates funds to the Commonwealth Financing Authority (the "Authority") for planning, acquisition, development, rehabilitation and repair of greenways, recreational trails, open space, parks and beautification projects using the Greenways, Trails, and Recreation Program (GTRP).

Uses

Projects which involve development, rehabilitation and improvements to public parks, recreation areas, greenways, trails, and river conservation.

Eligibility

- For-Profit Businesses
 - Municipalities
 - Councils of Governments
 - Authorized Organization
 - Institution of Higher Education
 - Watershed Organization
-

Funding

Grants shall not exceed \$250,000 for any project. A 15% match of the total project cost is required.
